Dear Sir/ Madam,

It gives me immense pleasure to inform you about this year's InTech Olympiad (Formerly IT Olympiad). The event is entering in its third year, and with your support the students participation is increasing day by day. The event is organised in a way to bridge gap between industry and academia and the path chosen is through live projects.

As you are aware project work is one of the most appropriate activity to groom the budding engineers. A student from any branch, any year of engineering/management/Diploma can participate. There is no restriction on number of students from your Institute, but we expect at least few students from your Institute to reach to finale in the month of February 2018.

The projects are live case studies from industry and the industry mentor will guide the students along with academic mentor. It is a national level initiative, and last year more than 6500 students participated from all the states and Union Territories of India. More details about this initiative can be found on:

Dear Professors,

Registrations started for the InTech Olympiad 2018

Please ask your students to register by clicking on link '<https://www.intecholympiad.org/register>' or they can go to website (<https://www.intecholympiad.org>) and click on 'Sign Up' button to register.

First trial test will commence on 12th August and students will be notified on email for the same.

Please forward as appropriate.

Best Wishes,
InTech Olympiad 2018 Team
<https://www.intecholympiad.org>

Looking forward to your active participation in this nation building exercise. In case of any difficulty please call

me or write to me.

Prof. S.D.Agashe
