Executive Summary

Introduction

The Gandhigram Rural Institute (GRI) traces its origins to 1947, the year of India's independence. Gandhigram, a village purposely named after the father of the Nation, was established by a team of disciples of Babuji, led by Dr.T.S.Soundram and Dr.G.Ramachandran with a view to providing higher education to the rural youth and to train them as social engineers who would serve the rural masses and contribute to the reconstruction of rural India.

The Gandhigram Rural Institute (GRI) was established in the year 1956, under the auspices of the National Council for Rural Higher Education (Ministry of Human Resource Development / Ministry of Education, Government of India) as one of the 11 Rural Institutes established in various parts of the country. Right from its inception, GRI has founded its educational principles on the revolutionary concept of *Nai Talim*, a new system different from the mainstream of western higher education in India, with extension as the central focus, linking teaching and research.

While all the other 10 rural institutes got affiliated to their neighbouring universities, GRI established its name by steadfastly pursuing its mission of taking higher education to the rural masses. This Institute has its genesis in the extension programmes conducted in the rural environs which made extension as the pivotal component of education.

GRI, since its inception, has been rendering yeomen service by empowering the rural populace through educational and extension services. The educational model blended with Gandhian ideologies was recognized as a pioneering practice to educate and train social architects for integrated rural development. In recognition of its noble and relentless services rendered in the realm of the triangulated dimension of higher education, namely, teaching, research, and extension, GRI was conferred with the status of a Deemed to be University in August 1976 by the University Grants Commission. The Institute is governed by the Ministry of Education, Government of India, and is fully funded by the University Grants Commission, New Delhi.

The curricular model developed at GRI integrating teaching, research and extension earned the Institute the status of a Deemed to be University in 1976, from UGC. GRI was one among the two universities in Tamil Nadu accredited with the Five Star Status by NAAC in 2002 (1st Cycle). Subsequently, it was accredited with 'A' Grade in the 2nd and 3rd cycles in 2010 and 2016 respectively. Now, GRI has been accredited by NAAC with A++ Grade with CGPA of 3.58 in the Fourth Cycle. In the NIRF ranking ladder, the institute was placed in the rank band 151-200 among universities of the country in NIRF 2022; GRI has been ranked the rank band 101-150 in NIRF 2021, 91st in 2020, 75th rank in 2019, 79th rank in 2018 and 91st rank in 2017 among universities.

The functional framework of GRI is deep-rooted in Gandhian ideologies of education and extension and its core objectives are: *to provide instruction and training in such branches of learning as will promote a classless and casteless society; to provide for research and advancement and dissemination of framework; and to function as a centre for extension work leading to integrated rural development.*

GRI has 8 schools, 19 departments and 7 centres, apart from the Central Library, Physical Education and DDU-Kaushal Kendra. Under this academic setup, GRI offers 62 academic programmes ranging from certificate courses to doctoral programmes. As per statutory requirements, select programmes offered by GRI are approved by AICTE and NCTE.

The quality of teaching and learning at GRI is assured by 95 well-qualified, experienced and committed faculty members. The vigour of research on campus is promoted by 298 research scholars. As many as 62 permanent non-teaching and technical staff offer support to teaching, research and extension activities. To meet the needs of the ever increasing student strength, 165 Adhoc teachers have also been appointed.

Academic Programmes

The curricular design of the programmes offered at GRI pivots on the graduating students' core and allied skill development with due provisions to imbibe social and cultural values and help the students emerge as social architects. The institute is determined to develop socially responsible and professionally competent graduates to meet the demands for human resources in educational, industrial, research and development and social service sectors. The institute offers mandatory value-based courses on *"Gandhi's Life, Thought and Work"* and *"Gandhi in Everyday Life"* in order to implant Gandhian values in the younger generation.

During 2024-2025, GRI offered 22 PG (2 years), 6 PG Diploma (one year), 2 Five-year Integrated, 5 UG (4 years), 12 UG (3 years), 8 B.Voc. (3 years), 3 Diploma (2 years), One Diploma (1 year), 2 D.Voc. (1 year) and One Certificate programmes apart from B.Ed. Programme. The Institute follows the UGC's Choice Based Credit System (CBCS) regulations. Out of the 1186 students who appeared for the End Semester Examinations, 1053 passed, constituting a pass percentage of 88.80%. The number of Ph.D. degrees awarded during the year was 91. The institute has been following the semester examination pattern since 1976. The Choice Based Credit System (CBCS) is in practice since 1996.

Admission

Gandhigram Rural Institute adopted online admission system and was able to reach graduating aspirants from across the country and beyond, during 2024-2025. The number of applications received through online registration was 4303. Of this, 1425 students were admitted to various academic programmes offered during the year. As in the previous years, female students have outnumbered male students. Though the majority of enrolled students are from Tamil Nadu, GRI has also attracted students from other states of India, namely Bihar, Kerala, Lakshadweep, Pondicherry, Telangana, and West Bengal. The enrolment for Ph.D. programmes was 171. GRI follows the reservation policy of the Government of India as well as the norms laid by UGC. Admissions are strictly based on merit.

Funded Research Projects

Funded projects are a functional entity of the research culture and climate of a higher educational institution. The faculty members of GRI submitted 101 project proposals to funding agencies, namely, UGC, DST, CSIR, ISRO, BRNS, IRMA, ICSSR, RGNIYD, DRDO, DBT, ICMR, PCRA, KSCSTE, NISE, AICTE, MNRE, NBHM and State Planning Commission, Tamil Nadu with a total budget outlay of Rs.20.33 crores. A sum of Rs.1.19 crores have been received during the period under report.

At the department level, two departments have sanctioned with funds of Rs.2.65 crores under DST-FIST (Level I & II).

Conferences / Workshops / Seminars Organized

Being a vibrant educational and research hub, GRI regularly organizes several programmes to create platforms for knowledge sharing and dissemination on the latest trends and technologies. During the year under report, 212 programmes were organized viz., International Conference, International Workshop, International Training / Special Lecture programmes, International Webinars/Symposiums, National Workshops, National level Training / Special Lecture programmes, National Seminars/Webinars, State level Symposia / Seminars / Workshops / FDP, State level Training / Special Lecture programmes, University/College level Workshops, Training / Special Lecture programmes. University level Seminars / Webinars, University level lecture programmes and celebrations and Regional level sports meets. A total of 16325 participants, covering faculty members, scientists, research scholars, and students have benefitted through these programmes.

Participation in Conferences / Seminars/ Workshops / Faculty Development Programmes

The faculty members are encouraged to augment their domain knowledge, and share and upgrade their expertise by participating in academic and research platforms. They have participated in 195 such programs and have presented 95 research articles. Towards knowledge dissemination, faculty members delivered 167 keynote addresses and invited lectures.

The Institute periodically arranges faculty development programmes and workshops aimed at quality enrichment. 10 faculty members attended Refresher Courses, Short Term Courses / Orientation / Workshop and Faculty Development Programmes conducted by Human Resource Development Centres of various universities.

Research Publications

Research is an important dimension of higher educational institutions. In this regard, GRI is putting in its best efforts to enhance its visibility through quality research publications. The faculty members have brought out 270 publications in reputed and refereed journals, including those listed by the UGC during 2024-2025 with the *h-index* of 108.

Additionally, 55 Conference Proceedings, 23 Books, 15 Edited Books and 95 Chapters in Books have been authored by the faculty members. GRI promotes research publication culture among the researchers through its two journals, namely, *Journal of Extension and Research* (ISSN: 0972-351X) and *Gandhigram Literary Review* (ISSN: 2278-8190).

Visits Abroad & International Associations

The quality of research in GRI has opened up new avenues for collaborations/associations with universities/colleges overseas.

Research Fellowships

A total of 42 research scholars received funds under UGC-RGNF, UGC-MANF, UGC-EMERITUS, UGC-DSRPDFHS, UGC-SGC, UGC-PDFSS, UGC-PDFWM, UGC-JRF, UGC-SRF, CSIR-SRF, UGC-BSR, UGC-SVSGC, UGC-SJRPFGC, DST-PDF, DST-Inspire, ICSSR-PDF, ICMR and other schemes.

MoUs and Collaborations

In 2024-25, GRI has signed 108 MoUs with reputed educational institutions/organizations.

GRI has signed an agreement with National Database Management Limited (NDML) for uploading the students' credentials in the National Academic Depository (NAD). From the year 2021-22 onwards, the NAD is being maintained through DigiLocker and 4465 registered under Academic Bank of Credits and 5604 created under APAAR IDs for which a link is provided in the Institute's website.

Extension Programmes

The extension and outreach activities aimed at integrated rural development are the prime pillars of GRI. For this purpose, Village Placement Programmes (VPP) and Extension Activities are amalgamated suitably into the curriculum of all the programmes offered at GRI. The VPP greatly enables the GRI staff and students to get hands-on experience on the problems and challenges of rural life.

As a national recognition, the Ministry of Rural Development, Ministry of Panchayati Raj and Ministry of Drinking Water and Sanitation of the Govt. of India have recognized GRI (DU) as a National Level Monitor (NLM).

Unnat Bharat Abhiyan

UBA 2.0 was launched on April 25, 2018, with the Challenge Mode, wherein all HEIs are required to partner with a minimum of five villages willingly for community outreach. The Ministry of Human Resource Development, Government of India, identified the Gandhigram Rural Institute

(Deemed to be University) as one of the Regional Centres for UBA in March 2019 covering the states of Tamil Nadu, Kerala, Karnataka, Andhra Pradesh, Telangana and the Union Territories of Puducherry, Andaman & Nicobar and Lakshadweep.

GRI has adopted nine villages from three Taluks under the Unnat Bharat Abhiyan (UBA) programme of the Government of India. Activities aimed at the upliftment of the adopted villages were carried out under UBA.

Sports, Games & Yoga

To encourage and foster sports and games among the students of GRI, the Centre for Physical Education and Yoga trains the students for intra and intercollegiate sports tournaments. A course on *Sports and Games* is being offered as a foundation course for all UG students. Yoga Education is a non-credit mandatory course for first-year students. The sports teams of GRI won several sports/games tournaments at the state and the regional level.

Awards Won by Faculty

Seventeen faculty members have received 21 awards for their substantial contribution in the arena of Higher Education in terms of their contributions to academics, research and extension.

Governance

The Honourable Union Minister, Ministry of Education (MoE), GoI, is the Chairman of the GRI Society. In 2024-25, the meetings of the Board of Management, the Planning and Monitoring Board, the Academic Council, the Finance Committee and the GRI Society were held periodically.

Finance

During the FY 2024-25, GRI received Rs.83,13,40,401/- having an opening balance of Rs.4,29,30,130/- under a maintenance grant, against which the expenditure was made to the tune of Rs.91,92,45,649/- and Internal receipts of Rs.449,75,118/- and having NIL balance as on 31.03.2025.

Summing Up

GRI is constantly making its mark in every sphere of teaching, research and extension. Its credentials, recognitions, accomplishments and action-packed strategic plans would undoubtedly facilitate the institution to attain heights of excellence and reach new horizons of quality assurance and sustenance in higher education. Recently GRI has been accredited by NAAC with A++ Grade with CGPA of 3.58 in the Fourth Cycle.

Extension through Community Outreach

The Gandhigram Rural Institute (Deemed to be University) is being fully funded by the Ministry of Education, Government of India. The UGC, New Delhi has developed academic programs in rural development, rural economics and extension education, rural oriented sciences, co-operation, development administration, rural sociology, English, Tamil and Indian languages. The institute is also offering Engineering, Technology related academic and vocational educational programs.

Gandhigram Rural Institute (GRI) is quite active on both campus and off campus (rural areas) in the vicinity, for mutually benefitting and enriching one another. Besides, its contribution in teaching, from Pre-primary, certificate, diploma, degree and all the way to Post-doctorate levels. The Institute applies the learning from both scientific and social research to solve contemporary rural problems. The curriculum is a combination of theoretical, practical and extension approaches. The Institute has become home to many pioneering models of rural development programmes. The students and scholars who emerge from its portals tend to meet the personnel needs of rural development programmes under various governmental and non-governmental organizations.

The three dimensional approach of higher education namely teaching, research and extension has become a highly celebrated model, earning global and nationwide appreciation. Started in a small way the Institute has evolved into a reasonably large and expansive educational complex comprising of 8 schools, 16 departments and 12 Centres offering various academic and also vocational programs, ranging from certificate courses, to Graduate programmes to Doctoral and post-Doctoral Programmes.

In the context of sustainable development, rural extension has a very essential role to play. The responsibilities of Extension Service Providers (ESP) need to be comprehensive and holistic in contents and scope. It is more than the technology transfer. It normally aims at the task of disseminating appropriate technologies and good practices. Higher Education Institute (HEI) as an Extension agency need to exercise a more proactive and participatory role and serve as Knowledge and Information "Providers", initiating and facilitating mutually meaningful and equitable knowledge-based transactions among community, researchers, trainers, and other stakeholders. The new trends and developments to be integrated in rural extension are concerned with the fields of

- **Approaches and Methods:** Participation and other new approaches in adult education, farmer field schools, market orientation and value chains, livelihood concepts, knowledge and innovation systems;
- **Structures and Organizational Issues:** Privatization, decentralization, partnership and new dynamics in rural development;
- **Extension Aids and Media Use:** Ongoing digitalization, digital photography and video, classical internet services, including search engines, web services, opening up new dimensions of access to information, of e-learning and distance learning, and of networking among professionals as well as among clients.

In this context, it is pertinent to have an understanding of the field level experiences which the GRI as an Extension Service Provider (ESP) planned and managed the Field Outreach and Community Engagement Programmes during 2024-25 academic year. During the year efforts have been made for many academic and field based programmes. It is a major challenge for the various Departments in the GRI to plan and execute the field level programmes. Because, needs of the people in the rural area is more of dynamic due to various reasons such as - increased awareness, technology intervention / support. Hence, there were few initiatives taken up during 2024-25 to reach the village community and also to educate the students on the rural issues through experiential learning through field visits and community engagement.

This Report is a collection of information on various efforts by Departments of Lifelong Learning and Extension of the GRI during the academic year 2024-25. The programmes and events are organized as part of the Community Engagement Outreach efforts. They are presented in the following section.

Department of Sociology

Profile

Establishment of the Department coincided with the conferment of the Deemed to be a University status to the Institute in the year 1976 and carrying out Teaching, Research and Extension activities since its inception. Earlier the faculty of this department engaged in offering the only PG course with a thrust on Rural Society in the Institute namely M.A in Rural Services in which Sociology was the Major Component. The nomenclature of this PG course was replaced with M.A in RS&PR (Rural Sociology and Panchayat Raj). Later the same M.A course was changed as Rural Sociology and finally taking into consideration of the felt needs and future of the students, the PG course was modified and re-named as M.A in Sociology in the year 1990. M. A. (5 Yr. Int.) Sociology programme is introduced during the academic year 2017-18 in the place of M. A. Sociology programme. In the current year (2024-25), the Department of Sociology has started the BA/MA Integrated Sociology Programme under NEP Mode. The Ph.D. programme was launched in the year 1986 and produced 30 Ph.D. Scholars so far. The M. Phil. Programme in Development Sociology was introduced in the year 1996 with an inter-disciplinary thrust and produced more than 100 M.Phil. Scholars and majority subsequently pursued Ph.D. programme also. The Department has organized many Seminars, Symposia and Workshops focusing on marginalized communities and also conducted training programmes for the benefit of NGOs, Government organizations and Community Based Organizations (CBOs) in villages with funding support from UGC, ICSSR, MHRD, UNICEF and NFCH etc. As for extension programmes, the PG students have been involved in various kinds of rural reconstruction activities in the service villages of GRI, by adopting the approach of Micro level Planning (MLP) and assignment of five families to each student to show result oriented extension services during the semester period for which students are to submit the report on extension services at the end of each semester. In addition, sensitization and awareness generation programmes with specific reference to social welfare are taken under the scheme of taking the University to the door steps of the villages by adopting the strategy of reaching the unreached. The extension based development intervention has been undertaken within the broad frame work of Millennium Development Goals (MDGs) and Providing Urban Amenities in Rural Areas (PURA) and Unnath Bahrath Abhiyan (UBA). This exercise is undertaken to link the class room theoretical deliberations with practical field based learning for the students. The social lab/observatory technique adopted in the extension service has made the students to get involved practically in action research based micro level development planning oriented village development endeavors. The department has also facilitated the establishment of the Centre for the Study of Social Exclusion and Inclusive Policy in GRI with funding support from UGC in the year 2010 during X plan period, initially at a cost of Rs.2 crores and later continued with increased financial support for pursuing inclusive growth through investigations, advocacies, seminars besides teaching, research, extension activities

Centre for Women's Studies

Profile

The Centre for Women's Studies was established on 25th, September, 2009. The University Grants Commission recognizing its contribution in the development of women has established a women's studies centre at GRI. Women's Studies examine women's contributions to human societies as well as the effect of culture and society on women's lives. The discipline focuses on the conditions of women's lives, both in India and around the world, as well as the historical and theoretical explanations for these conditions. Women's Studies also considers contemporary issues and trends that uniquely affect women and explore how the intersections of gender with factors such as race, social class, and sexuality can influence women's lives. The Centre organized various awareness programmes, seminar, and conferences apart from the teaching, research and extension activities. All the activities are aimed at gender mainstreaming and elimination of gender bias in our society

Centre for Futures Studies

Profile

The UGC-sanctioned Centre for Futures Studies was established in our institute under the 7th plan period in 1989 to promote research in multi-disciplinary areas relevant to Rural Development. The vision of the centre is to forge a holistic rural society and the mission includes developing micro-level planners through research. The centre has undertaken a Ph.D. / Project research in the field of Futures Studies, Sociology, Women's Studies, Sustainable Development, Tribal Studies and Environmental Studies. The Centre is offering a P.G. Diploma in Sustainable Social Development from the academic year 2019 onwards to understand the basic concepts of Sustainable Development in environmental, social and economic dimensions. UGC allocated three staff for the centre 1 Reader and 2 Lecturers. The Centre is meant for research and pre-research programmes. So far, 35 M.Phil., candidates and 17 Ph.D. candidates successfully completed their degrees. The Centre has carried out five sponsored research projects and has organized six national seminars and two webinars at national and international levels. A total of 11 books, 46 articles in the journal and 70 articles in the conference proceedings were published.

Centre for Study of Social Inclusion

Profile

The Centre for Study of Social Exclusion and Inclusive Policy (CSSEIP), Gandhigram Rural Institute (GRI)-Deemed University was established by University Grants Commission vide its letter No.F.319/2008 (SCT) dated 26th March 2008. It started to function in June 2010 as per UGC guidelines. Since its inception, the centre is marching towards achieving the goal of a more inclusive and just society through teaching, research, extension and networking with the third sectors. So far, the centre has conceptualized and understood the process, nature and forms of exclusion and has identified the excluded communities such as Dalits, Adivasis, Women, children, minorities, ageing population and Transgender etc. located in the vicinity of GRI. Currently, the centre is engaged in identifying the unmet need of policies, the challenges and prospects of inclusive policies. Recently the UGC, New Delhi renamed as Centre for the Study Social Inclusion(CSSI) in April 2024.

School of Management Studies

Department of Rural Industries and Management

Profile

Department of Rural Industries and Management was established on 16.09.1956 and inaugurated by Pandit Jawaharlal Nehru.

Objectives:

- To provide academic and techno-managerial inputs to youth on rural industries
- To promote rural industries and entrepreneurship in rural areas through students and community engagement.

Academic Programmes Offered

S.No.	Programme	Year of Introduction
1.	Ph.D	1993
2.	Master of Business Administration	2005-2006
3.	Bachelor of Business Administration	2017-2018

Department of Economics

Profile

Established in the year 1956, the Department has the vision of Excellence in Education, Research and Extension towards an integrated and prosperous rural economy. The Department offers programmes and courses in Economics and its branches, conducts need-based rural economic research surveys and studies, organizes seminars and workshops and undertakes outreach and consultancy activities in economics. The thrust areas include the Academia of Rural Finance and Banking, Energy Economics, Environmental Economics, Resource Economics, Development Economics, International Economics, Agricultural Economics, Health Economics, Gender Economics and Demographic Studies.

Academic Programmes Offered

- ❖ Governance and Administration
- ❖ Legal Framework
- ❖ Cooperatives and Entrepreneurship Development
- ❖ Business Development and Policies
- ❖ Cooperatives and Rural Development

School of Sciences

Department of Mathematics

Profile

The Department of Mathematics was established in the year 1965 and Diploma in Rural Service (Mathematics) was offered till 1975. Then B.Sc. Mathematics programme is being offered from 1976 onwards, Two year PG programme M.Sc. Mathematics is being offered from 2008-2009 onwards. Ph.D. programme is being offered from 1992-1993 onwards. B.Sc., B.Ed. in Mathematics is being offered from the academic year 2018-19. From 2024 onwards B.Sc. (Hons) Mathematics programme is being offered under New Education Policy. The major research fields being carried out in this Department are Stability Problems of dynamical Systems, including Neural Networks, Fractal Theory and its applications, Optimization in Marketing related problems, Control theory, Graph Theory, Algebraic Graph Theory and Quantum Computing Algorithms. The Department has published more than 820 research articles in SCI journals with SCOPUS citations of more than 14270. So far the Department of Mathematics produced 102 Ph.Ds. Additionally department has 10684 books for the student accessible in the Library supported by UGC-SAP, DST-FIST, NBHM, etc. Since 1997, faculty members are receiving funds from various funding agencies including UGC, NBHM, CSIR and DST-SERB for research and developments. As a result of consistent performance in research, the Department is upgraded with UGC - SAP (DSA-I). International-level research collaborations are being undertaken with Deakin University, Australia, University of Technology, Sultanate of Oman, UAE, Institute of Mathematical Sciences, University of Malaya, Malaysia, Nanyang Technological University, Singapore, Yonsei University, South Korea, United Arab Emirates University, UAE, University of Texas at Arlington, Texas, USA, Pusan / Kunsan National Universities, South Korea and UCSI University, Malaysia. So far the Department has successfully conducted 22 International/National Conferences / Seminars / Workshops. In addition to that the Department successfully completed 28 funded projects. Every year the Department celebrates National Mathematics Day and an Intercollegiate Math fest Competitions organized by the Students Association.

Department of Physics

Profile

The Department of Physics is DST- FIST supported. It is one of the oldest Departments of the Gandhigram Rural Institute, established in the year 1965. From its inception, the Department has been working for the development of the rural populace by imparting higher-level education and job-oriented (skill-based) training programs for the sustenance of their livelihood. Further, the Department has highly enriched scholarly faculties working in frontiers of physical sciences specifically the macro materials (polymer nanocomposites, bio nanocomposite, semiconducting composites) down to nanomaterials like nanostructures, actuators, and Nanosensors and also concentrating research on energy storage devices such as supercapacitor, batteries and fuel cells.

Department of Chemistry

Profile

The Department of Chemistry is offering B.Sc., B.Sc. B.Ed., M.Sc., M.Phil. and Ph.D. programmes in Chemistry. The thrust areas of research include Nanomaterials, Electrochemical sensors, Synthetic Organic Chemistry, Environmental Chemistry, Coordination Chemistry, and Corrosion Inhibitors. The Department has also undertaken many research projects funded by DST, DBT, CSIR, UGC and DRDO. The faculty members of this Department have published over 800 Research papers in both international and national journals. The h-index of the department is 62.

Department of Biology

Profile

The Department of Biology was established in 1978. It offers one UG (B.Sc., Microbiology), three PG (M.Sc., Botany, M.Sc., Zoology, M.Sc., Microbiology) and three Research programmes viz., Ph.D. in Botany, Ph.D. in Zoology and Ph.D. in Microbiology. This Department has organized five Refresher Courses and conducted many National and International Seminars & Conferences. This Department is concurrently organizing many Short Term Trainings & Consultancy on Mushroom Technology, Vermitechnology and Spirulina cultivation to the rural poor through projects funded by DBT, UGC & CAPART, New Delhi. The vision of the department is to develop manpower, facilities and infrastructure in the field of Biological Sciences so as to become vibrant in teaching, research and extension. The missions are to offer programmes suitable for the prevailing conditions, to conduct training for the transfer of Biological Technologies, to promote application and value oriented research for rural development and to develop an advanced centre for promoting Biological Sciences.

- ❖ Plant Taxonomy; Biodiversity Conservation

Department of Home Science

Profile

From its inception, the Department of Home Science offered a course on Diploma in Rural Services (DRS). When the Institute became a Deemed University in 1976, the Department gradually introduced B.Sc. Home Science, M.Sc. Home Science Extension and Communication, M.Sc Food Science and Nutrition, M.Phil and Ph.D. programme. The Department has produced 52 Ph.D's and at present 17 scholars are currently doing Ph.D. on a full-time and part-time basis, out of which two of them are receiving fellowships from UGC and the Ministry of Tribal Welfare. The Department has generated Rs. 51 lakhs through funded projects. UGC has sanctioned Rs.51 lakhs for B.Sc. Textiles and Fashion Design under Innovative Programme for a period of five years from 2012 – 2017. The faculty has ongoing research projects for the academic year 2023-24 for a sum of Rs.80 lakhs from funding agencies like NCDC, ICSSR & DSIR. The objective of the Department is to produce able teachers, administrator entrepreneurs, fashion designers, nutritionists, Dietitians, and Development professionals. The Department is also working for the empowerment of rural women through curriculum-oriented outreach activities.

School of Computer Science & Technologies

Department of Computer Science and Applications

Profile

In the year 1996, the Department of Computer Science and Applications has emerged as a pioneer in imparting Higher Education on Computer Science among the rural students in this part of the country. The Department has highly qualified faculty members with rich experience in teaching and research. The Department offers two Master's programmes namely, M.C.A. since 1995 and M.Sc.-IT during 2018-2020 that lead to rewarding careers opportunities and B.Sc. (Computer Science) for UG Programme since 2019. The department also offers Ph.D. Programme since 2000 and M.Phil. Programme from 2015. Presently, 32 scholars are pursuing their doctoral degrees and 59 scholars have been awarded so far. The thrust areas of research are Digital Image Processing, Medical Image Segmentation & Analysis, Parallel Computing, Object Recognition, MANET, Cloud Computing, Internet of Things, Network Security, Information Security and Bigdata Analytics. The Department also offers Courses on Computer Science for all UG & PG programmes of GRI. The Faculty of the Department handle funded research projects by UGC, ICMR and DST and 2 funded projects to the tune of more than Rs. 2 Crores have been carried out. In recognition of its research credentials, the Department has received funds under UGC-Special Assistance Programme (Rs.41 Lakhs + one Project Fellow) and DST-FIST Level-I (Rs.45 Lakhs). To disseminate the knowledge on Computer Science & Information Technology, the Department has successfully organized One International Conference. As part of its Extension activities, the Department promotes Computer Literacy and Education among the rural school teachers and students. It is also involved in devising and developing expert systems for rural development. The Department is a recipient UGC's Indo-US Knowledge Initiative Award as 2015, with a funding outlay of 1.25 crores. Under the department is a Lead zonal partner in the prestigious nationwide project leadingindia.ai in collaboration with Bennett University, New Delhi. Royal Academy of Engineering, UK. Under this initiative, the department consistently at its best efforts to disseminate knowledge through periodic workshops and training programmes on the principles and practices of Artificial Intelligence, Machine Learning and Deep Learning among the academic and research community of GRI and beyond.

The number of postgraduate students this year is 99 and the number of UG students is 173 for a total number of students 272).

Centre for Rural Technology

Profile

Centre for Rural Technology was Established in the Year of 1987. The Centre for Rural Technology is dedicated sustainable, affordable and practical solutions for Rural Development with a special focus on Cost effective Building Technologies and Rural housing. Therefore the Centre offered two UG programmes B.Sc (Rural Technology) & B.Sc (Sustainable Technology) till 2005.

The Centre works to bridge the gap between advanced research and the real needs of rural communities, ensuring that housing solutions are not only durable and eco-friendly but also economically viable for low income families.

Our activities include.

- ❖ Developing & demonstrating low cost, energy efficient building materials.
- ❖ Promoting innovative construction techniques that use locally available resources.
- ❖ Conducting training programmes for engineers, professional Rural youth and gross root level workers to adopt and implement these technologies.
- ❖ Assisting in the design and construction of affordable housing model and other civil engineering sector, trained to local climate, culture and habitat.
- ❖ From 2005 onwards B.Tech Civil Engineering Programme & 2012 onwards ph.D program till now.
- ❖ By integrating modern engineering with traditional wisdom, the CRT Aim to create housing solutions that improve living standards, empower communities and contribute to the long tem sustainability of rural areas

- ❖ Mud based Technology
- ❖ Geo-polymer Concrete
- ❖ High performance Concrete
- ❖ Nano composite building materials

Centre for Rural Energy

Profile

Established in 1998, the Centre for Rural Energy has been at the forefront of promoting renewable energy research, extension, and education. In its initial decade, the Centre primarily supported the Government of India's biomass assessment initiatives and focused on rural energy development. In 2010, the Centre launched its first academic offering—a Certificate Course in Energy Auditing—under the UGC Career-Oriented Programme. This was followed by the introduction of the M.Tech. in Renewable Energy in 2013 with a ₹60 lakh grant under the UGC Innovative Programme Scheme. The course is aligned with SDG 7 (Affordable and Clean Energy) and also supports Goals 4, 9, 11, and 13. The curriculum is revised every three years to match industry needs, with 14 new courses added during the assessment period, including skill-based and elective courses for students across various departments.

The integration of MOOC platforms like NPTEL has enriched the learning experience, with over 50 students completing online certifications. Through DAAD fellowships, six M.Tech. students visited German universities to pursue research on smart grids and waste management. A key academic highlight is the "Rural Energy Planning" course, which enables students to conduct household surveys and prepare DPRs for turning villages into "Model Energy Villages" through renewable energy integration. GRI has been recognised by the Ministry of New and Renewable Energy (MNRE) for its renewable energy skilling efforts since 2013. Under initiatives like Varunmitra (solar water pumping) and the jointly developed "Vayumitra" programme with the National Institute of Wind Energy, youth have received skill training in wind and solar energy. GIZ Germany also supported rooftop solar installer upskilling from 2014–2019. In partnership with IIT Roorkee, GRI conducted the Jal Urja Mitra programme for Small Hydro Power Plant training. To promote entrepreneurship, GRI launched the PM Surya Ghar-aligned Entrepreneurship Skill Development Programme in collaboration with MSME and NIESBUD—the first of its kind in Southern India.

The Centre's research focus includes renewable energy technologies and conservation. So far, 13 PhD scholars have completed their work. Notable innovations include a powdery biomass gasifier and a 36% thermally efficient log stove. Other projects include solar-powered rickshaws, nano-grid-supported cold storage, and solar autos. With eight completed and two ongoing funded projects, the Centre actively supports MSMEs through energy audits and collaborates with the District Industries Centre. It has conducted 450 awareness programs in partnership with PCRA. Facilities include a Renewable Energy Park and state-of-the-art laboratories funded by MNRE. The Centre also actively contributes to GRI's institutional best practices ASPIRE and CARES and maintains strong industry-institute linkages through MoUs and community-based engagements like the Village Placement Programme.

REC Foundation, CSR Arm of REC Ltd., has sanctioned 1 MW Grid Connected, Ground Mounted Solar Power Plant for GRI. The plant will be useful for real time lab for students..

Centre for Applied Geology

Profile

The Centre for Applied Geology was created during the UGC XIth Plan period (2012). In 2012, the Centre for Applied Geology started offering a PG Diploma in Applied Geology and Geomatics and Ph.D. in Geology Programmes. In 2013, the PG Diploma course was upgraded as M.Sc. Applied Geology and Geomatics with support under UGC's innovative programme. From 2018 onwards, the Centre started offering B.Sc. Geology and M.Phil. Geology Programmes. A certificate course on disaster mitigation and management is being offered from the 2019-20 academic year onwards. Within a short period, the Centre for Applied Geology has mobilized about Rs.1.9 crores through sponsored research projects from the University Grants Commission (UGC), New Delhi, Council of Scientific and Industrial Research (CSIR), New Delhi, Department of Science and Technology (DST), New Delhi, Anna Institute of Management (AIM), Chennai and Indian Space Research Organization (ISRO), Bangalore.

School of Agriculture & Animal Sciences

Profile

The School of Agriculture and Animal Sciences is one of the oldest faculties established in the year 1956 with a vision of rural development through the production of manpower in Agriculture and allied sectors. With this in view, the School of Agriculture and Animal Sciences is offering two major programmes in Agriculture viz., B.Sc. (Hons.) Agriculture and Diploma in Agriculture.

Vision

- To develop the School of Agriculture and Animal Sciences as a national centre with a regional focus winning a reputation for academic excellence in Agricultural Education and Research that would catalyze knowledge-based agricultural growth and development. Every student is inspired to learn and empowered to excel.
- To create, transmit and apply agriculture technology to ensure sustainability in agricultural production in this era of climate change to improve the quality of life of the farming community of this region.
- To impart value-based agriculture education and to generate agriculture graduates with ethical and moral values who will be change agents for Integrated Rural Development.

The thrust areas would also include Indigenous Knowledge, Better Farming and Farm Technology Transfer, Agro-Engineering and Organic Farming and Sustainable Agriculture.

Deen Dayal Upadhyay – Kaushal Kendra

Profile

The University Grants Commission (UGC) has launched a specific scheme towards skill development education as part of college/university education, leading to award of Bachelor of Vocation (B.Voc.) Degree (three years). The programmes have multiple exits such as Diploma (one year), Advanced Diploma (Two Years) and Degree level (3 years) under the National Skill Qualification Framework (NSQF). In tune with the Government of India's skill mission, Deen Dayal Upadhyay Center for Knowledge Acquisition and Upgradation of Skilled Human Abilities and Livelihood (KAUSHAL) was established in GRI in September 2015. The B.Voc. Programme is focused on skill development of student youth in universities and colleges, providing undergraduate studies which would also incorporate specific job roles and their National Occupational Standards (NOS) along with broad general education. This would enable the graduates completing B.Voc. to make meaningful participation in accelerating India's economy by gaining appropriate employment, becoming entrepreneurs and creating a pool of manpower with skills.

Vision

- Empowering Youth through Skill Development

Mission

- Developing skills in specific areas to meet the industrial needs
- Enhancing linkages between higher education and industries
- Serve as a finishing school through modular training programmes
- Promote need based, location specific and protect the traditional and skill and knowledge
- Network with such other centers, universities and colleges offering vocational and skill development programmes
- Undertake and promote R&D in skill development sustainable for employability of youth

Cell for Culture and Arts

- Traditional performance-oriented events were conducted to encourage students' imagination, creative ability and artistic expression.
- Frequent debates in evening classes for regional arts forms and skills for professional competence.
- The students are trained to relate the various regional art expressions, find the means to express them in national and international arenas.
- Exercises were given to incorporate learning in the social and cultural growth, igniting the learner to maximize the contribution as creative-beings and artistic.
- Assignments were given to explore the history and heritage of the region that could be detected in course of our experiment and induct these faculties within the purview of the School.
- Regular morning prayers and Friday inter-religious prayers are conducted to maintain discipline and harmony.

National Service Scheme

A team of dedicated disciples and contemporaries of Mahatma Gandhi, T. S. Soundaram and G. Ramachandran, established The Gandhigram Rural Institution in 1947. The Gandhigram Rural Institute was created to promote rural development. Today, it has become a nationally and internationally recognized university for its contribution to rural higher education. The NSS (National Service Scheme) Cell in the Gandhigram Rural Institute (Deemed to be University) was started in the academic year 1979-1980. It has organized several programmes to tune the personality of the student volunteers to make them responsible for rural development. The unique feature of NSS in GRI is that all the students studying Diploma, Undergraduate, and Postgraduate (except for one-year programmes) are NSS volunteers. There are 19 NSS units in the GRI NSS Cell. Shramadhan, tree plantation on campus and in the adopted villages and blood donation to the people admitted to the Kasturba Hospital, Gandhigram and Government Hospital, Dindigul are regular features. Other important Regular Programmes organized from April 2023 to March 2024 were the celebrations and observations of the days of National importance (NSS day, International yoga day, unity day, Swachhata Pakhawada, Quit India Movement, etc.), personality development programmes for volunteers, rally on social issues, training programmes on disaster management, skill development programmes, implementation of Swach Bharat Mission in GRI, Youth employment skills development programme and awareness programmes on dengue prevention etc. The NSS Cell of GRI has conducted 13 Special Camps during the year 2023-2024. These camps were conducted in the UBA villages of GRI. The detailed list of activities carried out under Regular Programme and Special Camps during the academic year 2023-2024 is presented in this consolidated report.

Swachh Bharat

Profile

The Swachh Bharat or Clean India Mission was conceived by the Hon'ble Prime Minister, Sri Narendra Modi, to motivate and galvanise Indian citizens from all walks of life to achieve Mahatma Gandhi's dream of a clean India. The Mission, visualized as a thanksgiving offering of the Indian populace to the Father of the Nation on his 150th birth anniversary, envisages a mass upsurge for ensuring cleanliness all across the country and the gradual emergence of an unsullied India through the reorientation of individual and collective habits. In response to the noble call of the Swachh Bharat Mission, the following Swachhata Hi Seva programmes were conducted.

- ❖ Compost Yard Activities
- ❖ Muster Roll Activities
- ❖ My Waste My Responsibility
- ❖ Door to Door Collection Activities
- ❖ Secondary Collection
- ❖ Explaining hand washing techniques
- ❖ Other Activities

Swachh Bharat Abhiyan awareness programmes were organized for the benefit of

- ❖ Village Panchayat presidents
- ❖ School children
- ❖ IEC programme for public
- ❖ SFT Training - Field visits of sanitation faculty students

Unnat Bharat Abhiyan

"If we have to build the nation, we have to start from the village."

-Hon`ble P.M.Sri. Narendra Modi

Unnat Bharat Abhiyan is a flagship Programme of the Ministry of Education with the intention to enrich rural India. The Programme was formally launched by the Ministry of Human Resource Development (MHRD) in the presence of the President of India on 11th November, 2014. Unnat Bharat Abhiyan 2.0 was launched by Shri Prakash Javadekar on 25th April 2018. The Vision and Mission of UBA are:

Vision

Unnat Bharat Abhiyan is inspired by the vision of transformational change in rural development processes by leveraging Knowledge institutions to help build the architecture of an Inclusive India.

Mission

The Mission of Unnat Bharat Abhiyan is to enable higher educational institutions to work with the people of rural India in identifying development Challenges and evolving appropriate solutions for accelerating sustainable growth. It also aims to create a virtuous cycle between societies and to upgrade the capabilities of both the public and the private sectors in responding to the development needs of rural India.

The Gandhigram Rural Institute formally submitted its application as one of the participating institutes under UBA in March 2018. Initially nine Hamlets where GRI crèches are functioning were mentioned as adopted Villages of UBA. In order to have a cluster approach and for easy accessibility, five panchayats in Athoor block surrounding Gandhigram were selected as UBA adopted Villages from January 2023. All the UBA programmes were Planned and Organized in these panchayats.

Training Programme on Development of Millet-Based Food Products

As part of its community empowerment initiatives, the Unnat Bharat Abhiyan (UBA) team from Gandhigram Rural Institute organized a Millet Training Programme on 07 August 2024 for Rural Self-Help Group (SHG) women. The programme aimed to promote nutritional awareness, sustainable agriculture, and income generation through millet-based food processing and value addition. Participants were introduced to various types of millets, their health benefits, and simple techniques to prepare millet-based products such as health mix powders, snacks, and traditional dishes. The training also included demonstrations on packaging, branding, and marketing strategies to help SHG members explore entrepreneurial opportunities. This initiative not only supported women's economic empowerment

but also contributed to the revival of traditional, climate-resilient crops for community well-being. Under the UBA SEG Project, titled 'Enhancing Village Women's Livelihood through the Development of Income Generating Millet-Based Food Product, this training programme was organized.

Career Guidance Programme

As part of its annual outreach activities, the Unnat Bharat Abhiyan (UBA) team from Gandhigram Rural Institute conducted a Career Guidance Programme on October 12, 2023, at Government Higher Secondary School, Thennampatti, benefiting around 120 higher secondary students. The session focused on creating awareness about higher education opportunities, entrance exams, and career pathways, with special emphasis on the Common University Entrance Test (CUET), a centralized exam for admissions into undergraduate and postgraduate programs across various Indian universities. The team explained the structure of CUET-UG, which includes language tests, domain-specific subjects, and a general test, and highlighted preparation strategies such as focusing on NCERT textbooks, regular practice, and current affairs awareness. This program addressed the pressing need in rural areas where, despite improving enrollment, students face a lack of guidance and resources to navigate higher education paths. UBA's initiative bridges this gap by equipping students with knowledge and tools to access quality education through national-level competitive exams like CUET.

Participation in Gram Sabha Meeting

Participation in the gram sabha meeting is a regular activity of UBA, under the Revamped Rastriya Gram Swaraj Abhiyan, with the collaboration of the State Institute of Rural Development and Panchayat Raj, UBA unit of GRI is providing handholding support to eleven panchayats in Athoor block in the preparation of the GPDP. On 15th August 2024, 2nd October and 26th January, the Executive Members of Unnat Bharat Abhiyan (UBA) from Gandhigram Rural Institute actively participated in the Gram Sabha Meeting conducted across the serviced panchayats under the institute's UBA initiative. Their presence reinforced community engagement, local governance participation, and collaboration between academic institutions and rural stakeholders. During the meeting, UBA members observed and contributed to discussions on village development plans, public welfare schemes, and the needs of the local population. This involvement reflects UBA's commitment to strengthening participatory rural development and supporting grassroots democratic processes

Career Guidance Programme

On 02 September 2024, the Unnat Bharat Abhiyan (UBA) team from Gandhigram Rural Institute conducted a Career Guidance Programme at Kasturba Sevikashram School, Gandhigram, for higher secondary students. The session aimed to educate students about various career options, entrance examinations, and opportunities in higher education. Special emphasis was placed on preparing for competitive exams such as CUET, and students were guided on subject selection, time management, and available scholarship schemes. The programme sought to empower rural students with the necessary information and motivation to pursue their academic and professional aspirations with confidence.

Tree Plantation and Career Guidance

On 10 September 2024, the Unnat Bharat Abhiyan (UBA) team from Gandhigram Rural Institute carried out two impactful activities. Firstly, a Tree Plantation Drive was organized in one of the Service panchayats of Gandhigram, aiming to promote environmental sustainability and community participation in afforestation efforts. Saplings of native species were planted with the support of local residents and panchayat members, reinforcing the importance of green cover and ecological balance. Secondly, a Career Guidance Programme was conducted at Government Higher Secondary School, Kammupillaichathiram, where higher secondary students were oriented on educational pathways, competitive exams, and skill development opportunities. The initiative aimed to inspire and equip rural students with knowledge and resources for shaping their future academic and career goals.

One-Day Workshop on Entrepreneurial Awareness Programme

On 20 December 2024, the Unnat Bharat Abhiyan (UBA) team from Gandhigram Rural Institute organized a One-Day Workshop on Entrepreneurial Awareness aimed at promoting entrepreneurial thinking and self-employment opportunities among rural youth and women. The workshop covered key topics such as idea generation, business planning, access to government schemes, financial literacy, and marketing strategies. Experts and successful entrepreneurs were invited to share insights and real-life experiences, inspiring participants to consider entrepreneurship as a viable career path. The event also provided information on support systems like MSME schemes, startup funding, and local incubation facilities, thereby fostering a culture of innovation and economic self-reliance in rural communities.

Distribution of Orchid Saplings to Tribal People

In Collaboration with Tamil Nadu Adi Dravidar Housing and Development Corporation, Ltd, Chennai , Unnat Bharat Abhiyan, GRI executed a project titled 'Empowering Tribal Women in Dindigul District Tamil Nadu with Employment and Income Generation through Orchid Cultivation and Value-added Initiatives under the leadership of Dr.R.Ramasubbu, Associate Professor, Department of Biology, GRI. On 27 January 2025, the Unnat Bharat Abhiyan (UBA) team from Gandhigram Rural Institute organized a programme to distribute orchid saplings to tribal women. The initiative aimed to promote floriculture as a supplementary livelihood option, enhance biodiversity, and encourage sustainable agricultural practices. Beneficiaries were also given guidance on orchid cultivation techniques, care methods, and potential market opportunities. This effort not only supported environmental conservation but also opened avenues for income generation and rural entrepreneurship through high-value horticulture.

UBA Executing Committee Meeting

On 13 February 2025, the Executive Committee Meeting of the Unnat Bharat Abhiyan (UBA) was held at the Gandhigram Rural Institute (GRI). The meeting focused on reviewing the progress of ongoing UBA activities, assessing the impact of recent community outreach programmes, and planning upcoming initiatives for rural development. Key agenda items included discussion on collaboration with panchayats, enhancement of livelihood-based training, strengthening student participation, and alignment with national-level UBA objectives. The committee emphasized the importance of sustainable practices, inclusive development, and active community engagement in all future actions.

Skill Training Programme

On 17 February 2025, the Unnat Bharat Abhiyan (UBA) team from Gandhigram Rural Institute conducted an online Skill Training Programme aimed at empowering rural youth with practical, income-generating skills. The training focused on areas such as employability skills, based on local needs and employment potential. Participants received hands-on instruction, along with guidance on accessing government support schemes and marketing their products or services. This initiative was part of UBA's continuous efforts to promote self-reliance, enhance employability skills among students. The resource persons were from Cognizant Technology Solutions, Coimbatore.

National Science Day Celebrations

On 22 February 2025, the Unnat Bharat Abhiyan (UBA) team from Gandhigram Rural Institute organized two significant events to promote scientific awareness and education. Firstly, a STEM (Science, Technology, Engineering, and Mathematics) Programme was conducted at GRI, aimed at encouraging school and college students to explore scientific concepts through interactive demonstrations, hands-on experiments, and motivational talks by faculty and researchers. Secondly, the team celebrated National Science Day at Kottaipatti village, engaging school students and community members through conducting a competition among the students. The events aimed to foster a scientific temper, spark curiosity among young minds, and bridge the gap between science and society in rural areas.

Presenting UBA Activities through Pasumai FM

On 25 February 2025, the Unnat Bharat Abhiyan (UBA) team from Gandhigram Rural Institute presented their UBA activities and initiatives through Pasumai FM, the community radio station of GRI. The broadcast highlighted key programmes such as career guidance, skill training, environmental initiatives, and entrepreneurship development conducted across the serviced panchayats. The session aimed to create awareness among the rural population, showcase success stories, and encourage greater community participation in developmental activities. By leveraging community radio, UBA effectively reached a wider rural audience, reinforcing its commitment to inclusive, participatory rural development and knowledge dissemination. Mr. Raja, Panchayat President, Chettiyapatti panchayat, and Mr. Saravanan, farmer from Kottaipatti, shared their experiences and UBA's contributions to their village.

Training for SHG Women

On 15 March 2025, the Unnat Bharat Abhiyan (UBA) team from Gandhigram Rural Institute conducted a training programme for Self-Help Group (SHG) women in the serviced panchayats. The training focused on preparing cloth bags out of the used clothes in their homes. As a green initiative and to promote recycled products, this training was imparted to SHD women from the Gandhigram Panchayat. Fifteen women were benefitted by this programme.

Distribution of Pre-Learning Materials to Anganwadi

On 04 April 2025, the Unnat Bharat Abhiyan (UBA) team from Gandhigram Rural Institute distributed Learning Materials to the anganwadi at Alamarathupatti. Based on the request from the anganwadi worker this programme was arranged. Mrs. Curlin, Child Development Project Officer of the Athoor Block participated in the programme. The programme aimed at enhancing the quality of early childhood education in rural areas. A variety of interactive, low-cost, and culturally relevant teaching-learning materials are designed to support the cognitive, social, and language development of young children. Teachers, parents, and community members from the serviced panchayats participated in the event, gaining insights into the importance of play-based and experiential learning.

Promoting Gandhian and Peace Values among Engineering Students of Participating Institutions in the Southern Region of Tamil Nadu

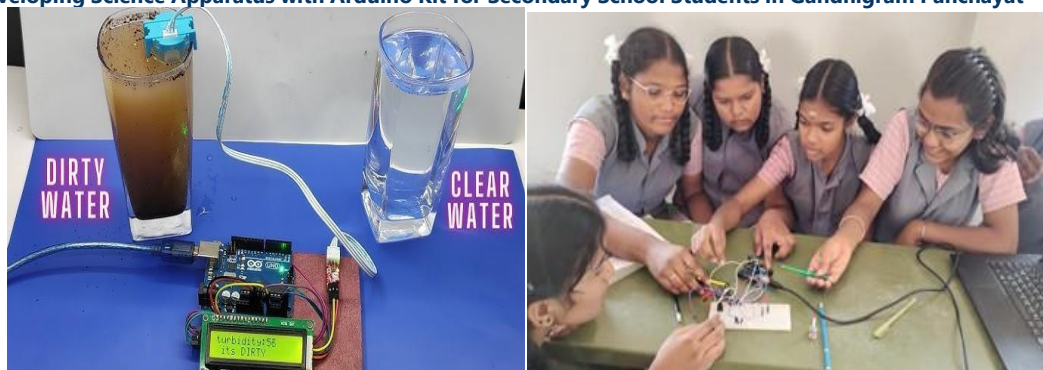

There is a pressing need for a robust, value-based education that instills character-building and fosters a sense of peace based on Gandhian principles in the minds of engineering students. Based on this need, UBA sanctioned a SEG Project to train the engineering students of UBA Participating Institutions - Engineering Colleges in the southern region of Tamil Nadu to acquire Domain-general Skills required, promoting a Value-based Personality. To instill Gandhian and Peace Values in the minds of Engineering students through orientation and peace training. To facilitate the students to serve as Samaaj Shilpis (Change

Developing Science Apparatus with Arduino Kit for Secondary School Students in Gandhigram Panchayat

Unnat Bharat Abhiyaan (UBA) and Department of Education, GRI, in connection with National Science Day Celebration 2025, jointly organized UBA-SEG-sponsored one-day workshop on "STEM using IoT Arduino-based Science Experiments for Secondary Rural School Students" on 22/02/2025 at Kasturba Sevikashram School, Gandhigram. This programme was inaugurated by Dr. S. Kavitha Maithily, Coordinator, UBA, GRI. In her inaugural address, she spoke about the purpose of this workshop and also motivated students to take up science in their higher education. A special address was given by Assistant Headmistress Ms. Jayalakshmi and Keerthika, Science teacher. Later, it was followed by the GRI team engaging students with the Arduino experiments, and a hands-on demonstration approach was used to give training to the students to conduct different science experiments with Arduino. The program ended with feedback and a vote of thanks.

The Gandhigram Rural Institute organized a one-day workshop titled "STEM using IoT Arduino-based Science Experiments for Secondary Rural School Students" in collaboration with the Ministry of Education and Unnat Bharat Abhiyan, with an organizing team comprising Dr. P.S. Sreedevi (Principal Investigator, UBA-SEG), Dr. S. Kavitha Maithily (Coordinator, UBA), Mr. V. Rajan (Head Master), and Mr. Rajendren (Science Teacher). Held on 13/03/2025, at Government Higher Secondary School, Ammainaickanur, the workshop featured eight Arduino-based experiments. 8th and 9th-standard students actively and enthusiastically participated in this workshop, exhibiting keen interest in hands-on learning and exploring scientific concepts. The workshop concluded with a vote of thanks, and participants provided positive feedback, appreciating the interactive nature of the experiments and expressing a desire for more such sessions, with many requesting that Arduino kits be made available in their school for further exploration.

GUIDANCE

The Path to become an IAS officer, unearthed

A guidance programme towards orienting students to clear IAS Exam, began with a welcome note by Dr. B. Tamilmani, HoD of Cooperation and program incharge, who highlighted the significance of the event especially to the final year UG and PG Students. Following this, Dr. L. Rathakirshan, Registrar i/c GRI, delivered the Presidential Address, emphasizing the crucial role of civil servants such as IAS and IPS officers in policy creation and implementation for national development. Dr.M. Sethalakshmi, Dean, Students' Welfare of GRI, while offering felicitation, stressed the importance of being self-confident, persistent, and hard working for the aspiring students. Mr. Israel Jebasingh, a retired IAS officer of 2004 batch, conducted an enlightening session on the path to become an IAS officer. Drawing from personal experiences and success stories, he provided valuable insights into overcoming challenges and preparing for the examination. He emphasized the importance of making a consistent newspaper reading and familiarity with the diverse subjects covered in the Exams. He also provided guidance to eligibility criteria for the UPSC exam, including age, community reservation, relaxation of age limits for different communities and the number of attempts being permitted. The structure of the UPSC examination, comprising the Preliminary Exam, Main Exam, and Interview, was elucidated. The Preliminary Exam consisting of objective type questions covering diverse topics such as history, geography, science, polity, economy, environment, and current events. Strategies for clearing the Prelims, including the cultivation of awareness, common sense, curiosity, and logical thinking were discussed. In the context of main examination, Mr.Israel Jebasingh highlighted the importance of using different words to craft descriptive answers, such as discuss, explain, illustrate, and examine, evaluate, enumerate etc. Additionally, insights were shared on preparing for the interview stage. A mock interview session was also conducted for the benefit of participants to gain knowledge of the interview process. Finally, two mantras were highlighted " You must be different from others" Fix up your mind with the determined focus. Dr. S. Manivel, Professor concluded the event by extending thanks, expressing the gratitude to the resource person, all the participants, and the organizer for their contributions to make this programme a success. Students from Cooperation, Economics, Sociology, Rural Development, Management and Public Administration of GRI were the beneficiaries of the programme. The staff and students altogether 160 Participated in the programme.

ACHIEVEMENTS

Three professors of GRI have been included in the list of top 2% world's best influential scientists

Three Professors from Gandhigram Rural Institute (Deemed to be University) have made it to the top two percent of scientists in the world. The world's best scientists are classified in 22 scientific fields and 176 subfields. At least five research papers published by all classified scientists are ranked based on field and subfield-specific percentages. The top 2% influential scientists ranking is made by Prof. John PA. Ioannidis and his colleagues at Stanford University. The list consists of researchers from different countries and research fields. The list includes more than 2 lakhs researchers all over the world. This list includes more than 3500 Indian researchers. Among them are scientists from the Gandhigram Rural Institute (Deemed to be University) Dr. P. Balasubramaniam, Department of Mathematics, Dr. S. Meenakshi, Department of Chemistry and Dr. K. Marimuthu, Department of Physics have been included in the 2023 year impact list. Apart from this, last year expired Dr. S. Abraham John, Department of Chemistry, has also been consistently ranked in the top 2% list

of scientists for research work. He has been focusing on developing sensors to detect biochemical factors using nanotechnology. These sensors are high performance and cost effective sensors. Scientist Dr. P. Balasubramaniam is conducting systematic research on transforming low-quality images into high-quality images using fuzzy logic approaches and detecting trauma in the patient's brain through cryptography and processing technology. Scientist Dr. S. Meenakshi is involved in research to develop methods to remove toxic fluoride, chromium, mercury and toxins from waste water by absorption. Scientist Dr. K. Marimuthu has been researching the emission of white light and laser light through glasses made of rare earth elements and is working on creating glasses to prevent hazardous radiation. While the above three Professors were included in the list of the world's best scientists published in 2019, 2020, 2021 and 2022, now for the fifth consecutive time, Dr.P.Balasubramaniam, Dr.S.Meenakshi, and Dr.K.Marimuthu have been selected.

Dr. N.Panchanatham, Vice - Chancellor congratulated Dr.K.Ashokkumar, Guest Faculty, School of Agriculture and Animal Sciences, GRI who got one among the Top 2% World Scientists on 25.09.2024.

GRI's Department of Chemistry Secures Rs. 2.2 Crore Grant

In a major milestone, the Department of Chemistry at The Gandhigram Rural Institute, Gandhigram, Dindigul Dt, Tamilnadu has been awarded a substantial grant of Rs. 2.2 crore by Department of Science and Technology, Ministry of Science and Technology, Government of India through it's Fund for Improvement of S&T Infrastructure (FIST) programme. This significant funding, announced on 23rd December 2024, will be utilized to enhance the department's science and technology infrastructure over the next five years. This prestigious grant is a testament to the department's exceptional performance over the previous five years. The faculty members have consistently demonstrated outstanding research capabilities, publishing numerous papers in high- impact factor journals. Additionally, their commitment to teaching has been exemplary, providing students with a top-class education. This development is expected to have a profound impact on the quality of education and research output, ultimately benefiting students, faculty, and the broader scientific community. The Department of Chemistry is all set to take its research facilities to the next level, thanks to a substantial grant from DST that will enable the purchase of state-of-the-art equipment.

Two Nuclear Magnetic Spectrometers: Worth Rs. 4.5 crore, these instruments are crucial for advanced research in chemistry. High Resolution Mass Spectrometer: Valued at Rs. 1.25 crore, this instrument enables researchers to analyze complex chemical structures with precision. Basic Instruments: The department also has a range of basic instruments, ensuring that researchers have access to everything they need to conduct world-class research. The new grant will fund the acquisition of additional equipment, including: Time Correlated Single Photon Counting Instrument: This instrument, worth Rs. 1.25 crore, will enable researchers to study complex chemical reactions with unprecedented precision. UV-Vis-NIR Absorption Spectrometer: Valued at Rs. 30 lakh, this instrument will facilitate the analysis of chemical structures and reactions. Gel Permeation Chromatograph: This instrument, worth Rs. 45 lakh, will enable researchers to separate and analyze complex mixtures of chemicals. These new additions will not only enhance the department's research capabilities but also create a more conducive environment for learning and innovation. The investment is expected to have a positive impact on the quality of education and research output, ultimately benefiting students, faculty, and the broader scientific community. This development is in line with the central government's efforts to promote scientific research and innovation in the country. The Ministry of Science and Technology, Government of India has been allocating significant funds to various departments and institutions to support infrastructure development and research initiatives.

GRI's Department of Physics Secures Rs.44 Lakhs Grant

The Department of Physics, GRI-DTBU, Dindigul, has been awarded a grant of Rs. 44 lakhs by the Department of Science and Technology (DST), Ministry of Science and Technology, Gol, under the FIST (Fund for Improvement of S&T Infrastructure) programme, announced on 23 December 2024. The grant will be utilized over the next five years to enhance the Department's science and technology infrastructure, supporting advanced research and education. This funding recognizes the Department's consistent research output, publications in high-impact journals, and excellence in student education. It will enable the acquisition of key equipment, including a High Current Multichannel Electrochemical Workstation with Spectroscopy, Hydrogen Electrolyzer Test Station (worth Rs. 35 lakhs), and a Pyranometer for measuring solar flux. These additions will strengthen research capabilities, create a favorable learning environment, and contribute positively to the scientific community. The Department expresses its gratitude to DST for this support, which builds on its existing infrastructure, including an X-ray Powder Diffractometer (Rs.70 lakhs) previously funded under DST-FIST(Level A).

VISIT

MP Visit

Mr.R.Sachithanatham, Member of Parliament, Dindigul Constituency made a visit to the Gandhigram Rural Institute (Deemed to be University), Gandhigram and interacted with the Vice-Chancellor Prof. N.
